

Butane Gas Refill

High quality butane for manual soldering irons. The container is equipped with a universal valve used to fill any type of gas soldering irons.

Physicochemical properties	
Physical state	gaseous at 20°C
Odour	characteristic
Melting point	-187,62°C (propane), -138,3°C (butane)
Flash point	-95°C (propane), -60°C (butane)
Flammability	extremely flammable aerosol
Vapours pressure	2,3-3,9 bar
Relative density	Not determined
Solubility in water	Not soluble
Autoignition temperature	470°C (propane), 365°C (butane)

Packagings:

Volume	Type of packaging	Collective packaging	Item Code
200 ml	aerosol	4/40	ART.AGT-266

Warehousing:

Store in sealed containers in dry and well ventilated areas away from sources of heat and ignition and direct sunlight. Do not expose to temperatures exceeding 50°C/122°F. Protect against electrostatic discharge.

Data contained in this document are consistent with the current state of our knowledge. They describe typical product properties and applications. However, it is up to the user to examine the suitability of this product for specific applications. We deny liability for the obtained results on the grounds that application conditions lie beyond our control.
